Documentation of Second Dose Measles Vaccine Requirement

In order to comply with Oregon law, Linfield College must require each full-time student born on or after January 1, 1957 to have two doses of measles vaccine prior to your second semester of enrollment. For students who are attending the institution pursuant to a non-immigrant visa, documentation of measles vaccination must be provided prior to the student attending classes. If the student’s first dose of measles vaccine was received less than 30 days prior to attendance, the student has until the beginning of the second semester to provide documentation of the second dose. Written documentation must be provided by the student with the month, day and year of each dose (within four days prior to, on, or after the first birthday, and with a minimum of 24 days between the first and second dose) will be accepted as adequate proof of two doses of measles vaccine.

To comply, please complete only one of following:
