

**Linfield-Good Samaritan School of Nursing
Office of Enrollment Services**

UNIVERSITY OF MONTANA, MISSOULA PREREQUISITE GUIDE FOR NURSING

Admission to Linfield-Good Samaritan School of Nursing is competitive. The goal of the admission selection process is to form a community of learners with the potential to succeed in a rigorous academic program and develop essential skills required for nursing practice. Meeting the minimum requirements below do not guarantee admission. They are the minimum to be considered for admission.

Prerequisite course completion requirements:

- A minimum of 11 semester credits (16 quarter credits) in the lab sciences (biology/chemistry, anatomy & physiology, microbiology) and *all other* prerequisite courses must be complete (not in progress) at the time of application for admission consideration.
- Anatomy & physiology, microbiology, and nutrition must be completed within 7 years of the application due date.

Grade Point Average (GPA) requirements:

- Minimum 3.000 GPA in all prerequisite courses.
- Minimum 3.000 GPA in prerequisite science courses (biology or chemistry, anatomy & physiology, microbiology).
- Minimum 2.700 GPA in prerequisite anatomy & physiology courses. Only one repeated grade for any anatomy or physiology course will be used in the calculation of the minimum GPA requirements. In the case where a student has more than one repeat on a single course, only the grade from the first repeated course will be used. A "W" or withdrawal from either an anatomy or physiology course will be counted as an attempt under this rule.
- All GPA requirements are calculated on prerequisite courses complete at the time of application and must be maintained through the completion of all prerequisite coursework.
- A letter grade of "C" or higher is required. Any coursework graded C- or below, P/NP, or S/U, does not meet prerequisite requirements and will not transfer to Linfield.

Total credits:

Students must have 62 semester credits (93 quarter credits) of *transferable* coursework complete prior to beginning the program. Courses may be completed at any *regionally* accredited

community college or university. Official evaluation of all transfer credit will be made *after* admission and confirmation into the program. Please be aware that, generally, professional/technical courses will not transfer. Repeated courses (that is, courses with the same content) will only transfer once. Students who have questions about the transferability of any coursework should contact admission-portland@linfield.edu.

Linfield Curriculum (General Education):

Students seeking their first bachelor's degree must also complete Linfield Curriculum (general education) requirements prior to graduation. These may be completed during the nursing program, but *it is recommended that the majority of these courses be completed prior to enrollment*. The prerequisite courses below will satisfy many of the general education requirements, but five areas—Creative Studies (CS), Ultimate Questions (UQ), Vital Past (VP), U.S. Pluralisms (US) and Global Pluralisms (GP)—generally require an additional 3 semester-credit or 4 quarter-credit course.

University of Montana, Missoula, students intending to transfer to Linfield's pre-licensure nursing program must complete the following coursework:

Writing. Complete both of the following:
WRIT 101, 201

Biology (preferred) and/or chemistry with lab. Complete one of the following sequences:
BCH 110 & 111 and one of the following: CHMY 121 & 122, 123 & 124, 141N & 142N, 143N & 144N
BIOB 160N & 161N and one of the following: CHMY 121 & 122, 123 & 124, 141N & 142N, 143N & 144N
CHMY 121N & 122, 123 & 124
CHMY 141N & 142N, 143N & 144N

Anatomy and physiology with lab. Complete one of the following sequences:
BIOH 201N & 202N, 211N & 212N
BIOH 365, 370

Microbiology with lab. Complete one of the following pairs:
BIOM 250N & 251
BIOM 360 & 361

Nutrition. Complete the following:
NUTRI 221N

Lifespan developmental psychology. Complete one of the following:
PSYX 230 & 233 (through Spring 2015, both courses to cover entire lifespan)
PSYX 230 (beginning Fall 2015, this course by itself covers lifespan)

Statistics. Complete one of the following:
PSYX 222
SOCI 202
STAT 216, 341

19 Nov 2018 (Subject to change without notice)
